Send for circular showing other designs.

Estimates Given for Any Work in Our Line of Slate.

We Offer

The "Buckeye" Brass Plated Mounted Coal Grate with Summer Front as shown on Page 14, instead of the Club House Fire Place, at **\$5.00 net extra.** This Grate is bolted together and ready to set in place. It has extra heavy Iron Sides, Fire Tile Back, Double Draft Dampers and Dump Bottom. The two Dampers are opened or closed by Damper Rods which extend to front of Grate, and overcomes the objection of operating by a poker. In considering the extra cost it is well to remember:

FIRST —That the Grate can be set instantly by anyone; thus saving extra labor. This extra would cost about	\$2.00
SECOND —That the Grate has Double Draft Dampers, which are not included in the C. H. Outfit. This extra would cost	1.50
THIRD —That the Grate has a Brass Plated Summer Front, which is not included in the C. H. Outfit. This extra would cost	2.50
Total Extra	\$6.00
Our Special Offer	5.00
In favor of the purchaser	\$1.00

Where a large fire is wanted, we furnish above design Grate, 30x30 inches, at **\$7.00 Net Extra.** We also offer Grate as shown on page 3 at an additional cost over the price of the Club House for size 24 inches wide by 30 inches high, at **\$8.00 Net Extra.**

For size of 30 inches wide by 30 inches high, at **\$10.00 Net Extra.** This Grate has the advantage of being heavier than the Buckeye, and includes slide in front of fire, so as to check draught, also slide in Ash Screen. The Grate has shaking and dumping bottom instead of plain dump. Where a strictly first quality Grate is desired, we would recommend this one.

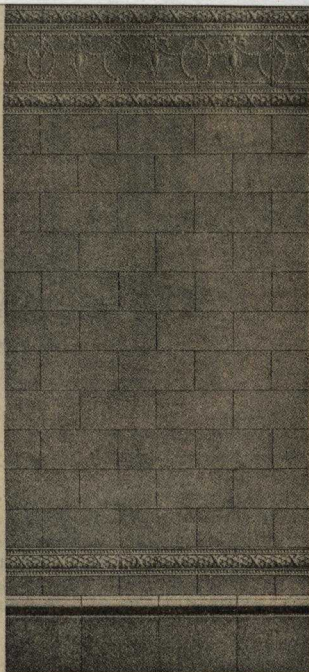

We Pay the Freight to points East of the Mississippi River and North of South Carolina.

MOUNTING TILES UPON SLATE.

The accompanying illustration shows our Tiling Mounted on Slab of Slate as we send it out for erecting. A, represents a section in position, B and C, similar sections to occupy the blank spaces so marked.

For out of town trade where the service of a skilled mason cannot be obtained, we are prepared to mount Tile Facings and Fire Boards upon Slate. We constantly employ a force of expert tile artisans, whose work we guarantee cannot be excelled, and we invite the most critical examinations and comparisons in support of this claim.

Any tile work sent out by us failing to give satisfaction, may be returned at our expense.

When furnished mounted in this manner, tiling can be easily set in position by any ordinary mechanic, and at the same time it gives a job so thoroughly excellent and durable, as to constitute its additional cost an eminently wise investment.

"It is not what we say, but what our customers say, that tells the story."

ALLENTOWN, PENNA.

Enclosed find our check in full settlement for Mantels shipped us. We admire the way you mount your Tiling, and think it is about the most perfect way in shipping Tiling for Mantels. **RITTER & SMITH,**
Contractors and Builders.

HATTIESBURG, MISS.

Your favor inquiring about the Mantels received, etc., at hand. The Mantels are entirely satisfactory and fully up to expectations. Your method of Mounting Tile on Slate is satisfactory and a very great convenience.

J. P. CARTER.

TUCKERTON, N. J.

I have just finished putting up the three Mantels I bought of you; fitted with your Tile Fireboard set up at Factory according to your idea, which certainly is a God-send for country towns, where there is no Tile setter. The Mantels all make a very nice appearance, and give perfect satisfaction, and as your idea of setting up Tile at Factory has been rounded into perfection, and a great convenience for country buildings, a large country trade should be derived from the same.

J. E. LIPPINCOTT, Architect and Builder.
